

Lets explore the world...

Our World today, has been invaded and conquered in the search for beauty, to be captured and fit into souvenirs and photographs; and we're led to believe that what is to be seen, has been seen already. But we could not be more mistaken.

Many have traversed the off trodden paths towards a Vacation of Leisure or Labor. And yet There is world out there - of endless possibilities, of untouched, glorious beauty - just waiting to be explored. We, at Isha Tours, invite you to join us, and view the world through our eyes; to travel the path less travelled, to where the real beauty lies.

Come, Let's Explore the exotic World...

Mr Atmaram Parab with His Holiness the 14th Dalai Lama. The meeting proved to be the best Reward of the continuous work done by Isha Tours in Ladakh over the last 14 years .

COMPLETE CHADAR TREK

06 - 16 Feb'17

“The real voyage of discovery consists not in seeking new landscapes but in having new eyes.” ~said Marcel Proust.

Ladakh in winter is when you can truly understand and experience these lines.

For those of you who have travelled to Ladakh in summer , the Winter brings in a totally new , overwhelming experience.

With Temperatures ranging from -10 to -25, the entire landscape is covered in a thick blanket of snow. The frozen rivers, frozen waterfalls, frozen shores, wilted trees, blue skies, no tourists interfering in pictures and lots of local festivals add to the beauty of the place making Ladakh in winter a heaven for photographers

What's more, the tranquil, azure blue waters of the Pangong lake also become a thick layer of ice sheet on which you can play cricket, drive your car or even do a somersault.
